(386) 668-0999 Ph.  
(386) 668-4477 Fx.

## Welcome to Our Office

You have been referred by your dentist to determine the need for root canal therapy (Endodontics) or to treat one or more of your teeth with a root canal. Endodontics is that speciality of dentistry devoted to the saving of teeth in which the pulps or nerves are affected. It is performed under local anesthesia, similar to that used by your general dentist. Complete treatment averages one appointment but may require up to two visits, depending on the severity of infection or very difficult teeth. Please be assured that any difference in treatment or anticipated complications will be discussed prior to starting treatment.

When endodontic therapy is completed, your tooth will require a permanent restoration. **It is important for you to return to your dentist for final restoration (onlay, cap or crown).** This is essential for the preservation of your tooth. Please make an appointment immediately upon completion of treatment.

If you have a history of **any heart valve or joint replacement**, please consult your physician or call our office so that we can provide you with the necessary antibiotic coverage prior to your appointment. If you are under 18 years of age, and visiting our office for the first time, you must be accompanied by a parent or legal guardian.

We will ask you to fill out a complete health history form as well as several information sheets. You may download forms from our website or please arrive early for your appointment to allow time to attend to these forms. We will make every effort to maintain your appointment time, but an occasional emergency toothache or a very difficult tooth will cause us to have slight delays. We appreciate your patience if this is to occur.

It is our office policy that payment is due upon rendering of service. We will gladly accept your insurance if we are able to verify benefits. If you are a member of a PPO type program, please call and discuss your benefits with your dentist, employer, or call our office. To further assist you we also accept Master Card, Visa, Discover, Care Credit, or Personal Check for payment.

Please feel free to call our office if you have any questions. If you must cancel your appointment, kindly allow a 24 hour advance notice so that we may give your appointment to someone else. We are looking forward to having you as a patient in our office. El Doctor Habla Espanol.

Thank You,

Michael E. DeGrood, D.M.D., P.A.  
and staff
